# CAREER

**Subject: You**

You are the expert on YOU! Have you ever wondered what else you could be an expert on? High School is a great time to plan, prepare and even train for your future.

The **Career Connected Learning (CCL) Resource Hub** provides practical tools, so that you can get help and find the career and educational path that feels right for you.

In a world where you can be anything—be YOU!

## CAREER PATHS

Did you know that you are already on your career path? Thinking about your interests, looking at available options and gaining more education is all part of career planning. Learning about different careers can be fun. You can visit someone working in a job that interests you, and ask them questions about what education they needed and how they got it. You can also find out by volunteering and participating in job shadows, internships, and apprenticeship programs.
