

CAREER CLUSTERS INTEREST SURVEY

STUDENT REFLECTION

This reflection is your chance to explore your top career interests, imagine potential futures and think about how your current activities align with your aspirations. Let's start exploring where your passions might lead you in the professional world!

DATE:

STUDENT NAME:

Take a moment to look at your top three career clusters from the survey. Write down one word or phrase that explains why each cluster appeals to you.

Picture yourself ten years from now in a job from **one** of your top career clusters. Describe a typical day in this imagined job. What tasks are you performing? Who are you working with? How do you feel at the end of the day?

Think about your current hobbies, classes or extracurricular activities. List any that you believe align with your top career clusters. How do they prepare or inform you about these potential careers?

Based on your survey results, list three specific steps you can take in the next year to further explore or prepare for careers in your top career clusters (e.g., joining a club, taking a specific class, attending a workshop).
